Final project proposal

Type	Undergraduate
Title	*Quasi- random Sobol sequences*
Supervisor	Vesna Dimitrievska Ristovska
e-mail	vesna.dimitrievska.ristovska @finki.ukim.mk
Department / Group	
Institute for theoretical bases of informatics and investigations	
Topic(s)	
Uniform distribution of sequences	
Project can start from	01.02.2015
Project duration	4 months
Short description	
It is expected to be individual activity: to study and generate different Sobol sequences, which are very well distributed, and to make graphics presentation in some program language.	
Results and assessment	
The results the student needs to present as project outcome are: written report, presentation and application.	
Other (additional) information
